Approval of Minutes: A motion was made by Member Varick to approve the minutes of

2020 Beach Report Review: Manager Walker and Director Collins reviewed the
performance and operation of the Glencoe Swimming and Boating Beach during the
2020 season, including staffing levels, beach training, the annual PDRMA audit,
revenue collection, water testing procedures, and beach programming.

Member Lerman expressed his gratitude, along with other members, towards Park
District staff for a job well done. Director Collins addressed the group about how the
upcoming beach season may look concerning COVID guidelines or non-COVID
guidelines. Discussion ensued about season pass sales and daily admissions.
Members recommended that future decisions be consistent throughout the season and
largely depend on the restrictions in place due to COVID-19.

Director Collins talked about the intergovernmental pool/beach agreement with the
Northbrook Park District and if members felt we should continue with the agreement
moving forward. Member Varick was in favor of the agreement, but also recognized it
should only be offered if both facilities were operating.

Member Smith expressed concern about density on the beach and feels the number of people on the beach needs to be closely monitored and suggested developing a density plan. Director Collins asked for feedback around when lifeguards should start for the season. There was consensus to guard the beach as soon as possible within the limitations of COVID.

Operational Planning Discussion: Director Leiner presented multiple capital projects slated for the beach facility with projected \$1.6 million expenditures. Director Leiner informed the group of possible timelines for the various projects and potential impacts to the beach operation during the summer. Member Smith voiced his concern about removing equipment at the end of the season.
